Summary

I am a Second-year B.Tech Computer Science student at Institute of engineering and management, Newtown, who is excited to learn more about the constantly changing field of technology.

Being educated in Python and Java, among other programming languages, I'm laying a strong basis in data structures algorithms. I'm eager to contribute to creative projects and am committed to continuous learning and industry trends. I'm up for sharing knowledge and getting the chance to use what I know in a practical setting.

Currently I am trying to develop more skills in programming and communication.
